THE POWER OF **CONNECTED**

Join Us for HUG 2018 and Connect with Peers and Honeywell Experts.

The 2018 Honeywell Users Group Americas Symposium, June 17-22, has an impressive agenda with different tracks throughout the event. You can follow a track or pick-and-choose from different presentations to best meet your business needs. Our tracks include:

- Smart Energy
- Health, Safety, Security and Environment
- Batch Excellence
- Control System Migrations
- Industrial Cyber Security
- Terminal Operations
- Process Measurement and Control
- Gas Distribution
- UniSim® Design

Keynote speaker: Jim Abbott, Former Major League Baseball Pitcher, presents: ADAPT—Overcoming Challenges

While in the Knowledge Center, don't miss the Skills Insight Competency' AR/VR Experiences

Or take a journey: choose from Alarm Management or Honeywell Connected Plant and Advanced Control.

See Honeywell leadership presenting in the general sessions. In the Knowledge Center the Honeywell experts will demonstrate the latest technology and present in special Spotlights sessions. Follow workshops and training sessions on topics such as smart energy, industrial cyber security, migration, Experion® PKS slick tricks, thermal solutions and more! Or join a roundtable discussion.

Remember to pre-book your one-on-one meetings in the Consultants Corner when you register for HUG.

It's all about gaining knowledge, don't wait any longer:
