Mr. Jo  
Project Manager  
Honeywell, Korea

Subject: F.A.T for Qatar LPG Tank Project

Dear Mr. Jo :

I would like to say thank you for your good cooperation for the success of our QP LPG Project FAT.

I am very much satisfied with the real good quality of the system and your people from Honeywell.

I was little bit afraid of the Honeywell system at the beginning of the project. But now I have very good impression of Honeywell Experion PKS system especially Foundation Fieldbus design and the people.

If I have another chance to select a control system in my future project, I would like to select Honeywell system again.

Especially I would like to say thank the people in Honeywell Netherlands Mr. Arpad Mazurel, Mr. Hans Colenbrader, Mr. Pertap Bansing and Mr. Tariq who provided us real good support during the FAT, and Mr. HyoungJun Lee and SeungWook Kim for their real positive approach of the work and quick action for our project needs.

Also I would like to say thank you for your support for Design of Foundation Fieldbus.

I really like Honeywell team's way of doing the project.

Thanks and best regards,

K.M Chung  
General Manager
