

Honeywell Enraf[®] Terminals Loading Automation

Planned Product Withdrawal of Legacy 1010Ax-CJ and 1010Ax-CB Preset Controller & its Variants

Date: March 27, 2020

Subject: Announcement of Legacy 1010Ax-CJ and 1010Ax-CB Product Withdrawal.

To: All HPS Personnel and Channels interested in Honeywell Terminals Loading Automation.

From: Maheshwar Rajagopala, PMC Terminals Offering Management maheshwar.rajagopala@honeywell.com

We would like to inform you that the Model 1010Ax-CJ / 1010Ax-CB Legacy Preset Controller & its Variants will be withdrawn from any new sales from 15th of April 2020 based on the current forecasted order rate.

The current plan is to provide spare parts to maintain functional operation for a maximum period of 3 years after this announced date of withdrawal of these products. After the 3 year time period, Honeywell accepts no obligation to provide spare parts support on such equipment. An upgrade program will be available to assist the customer with upgrading to a newer instrument or device.

We thank you for your continued support and look forward to working with you closely and successfully on the upgradation to latest [Fusion4 Loading Products](#) or New 1010Ax-CB Preset Controllers.

Thank you and assuring best of our services, for any further information or clarifications, please do not hesitate to contact our Local Sales Representative.

Recommendation

Honeywell Strongly recommend customers to upgrade with immediate effect to the approved [Fusion4 Loading Products](#) or New 1010Ax-CB.

For more information on upgrade possibilities, please contact your local Honeywell account representative.
