Welcome to the new Honeywell Channel Partner Portal

The new Channel Partner Portal is now online, featuring a new structure and advanced searches for finding sales-related information. As an authorized Honeywell channel partner, it's your gateway to the information you need to market, sell and support Honeywell products, solutions and services.

The Portal, accessible from the [Honeywell Process Solution website](#), gives you private, secure access to proprietary information through your personal login. The partner-specific content you'll find includes newsletters, price books, sales tools, policies, documentation, webinar schedules, and more.

The portal is for all Honeywell Process Solutions channel partners, so there may be chapters or item lines that appear empty as they may not be relevant for your product line. However, there's plenty there that is.

Your existing login credentials do not change. However, we recommend watching the [training tool](#) to bring you up to speed.

In the meantime, please don't hesitate to give us your comments and feedback. A feedback template is included in the Marketing & Communications section of the portal.

We hope you enjoy using this new tool.
