Course Overview
Course number: OMPM-02
Course length: 2 days

This course is designed to provide the learner with the skills to use and understand the Operations Management Suite of Applications. Areas of emphasis include information about Operations Monitoring, Operating Instructions and Operations Logbook. Attendees are provided with detailed descriptions of the functions & purpose of all 3 applications followed by practical implementation exercises.

Course Benefits
- Learn how to configure and use the Operations Management Suite of applications
- Learn how to set Targets, Limits, Boundaries and Constraints using Operations Monitoring
- Learn how to detect deviations in the monitoring targets and limits
- Learn how to view and understand Operations Management Reports
- Create and implement Operating Instructions and Instruction templates
- Create and implement Production Orders
- Learn how to create Instruction notes for shift handover
- Create shift comments and tasks
- Learn how to add reasons to logbook comments

Course Delivery Options
- In-Center Instructor-Led Training
- On-Site Instructor-Led Training

Who Should Take This Course?
Process Control Engineers:
- Responsible for the designing, implementation, and/or support of the Operations Management suite of applications

Plant or Mill Managers:
- Responsible for the operations of their Plant or Mill

Maintenance Engineers:
- Responsible for performance of their Plant or Mill

Prerequisite/Skill Requirements
Prerequisite Course(s)
- None

Required Skills and/or Experience
- None

Desirable Skills and/or Experience
- Attendees should be familiar with Uniformance and PHD and Web based applications

Course Topics
- Operations Monitoring
- How Operations Monitoring Works
- Using Operations Monitoring Web Forms
- Performing Deviation related tasks
- Using Operations Monitoring Reports
- Operating Instructions
- How Operating Instructions work
- Using Operating Instructions Web Forms
- Standard Productions Order Web Forms
- Operating Instructions Reports
- Operations Logbook
- How Operations Logbook Works
- Using Operations Logbook Web Forms
- Using Operations Logbook Reports

Additional Training
To increase your knowledge and skills, there are additional courses available from Automation College.
