Operations Mgmt. & Production Mgmt.: Fundamentals - Production Balance Implementation

Course Overview
Course number: OMPM-5802
Course length: 5 days

Do you implement, maintain or use Production Balance Application?
This course provides intensive classroom and hands-on training on how to successfully implement the Production Balance application from planning to commissioning. It is intended for anyone who is responsible for the implementation of the application.

Course Benefits
Become proficient in Production Balance functions
- Maintain and modify system configuration
- Interpret the reported results
- Learn various tools to use in calculating the balance
- Discover techniques for handling special situations

Course Delivery Options
- In-Center Instructor-Led Training

Who Should Take This Course?
Customers who use, administer, or implement Production Balance software, and want to learn more about its functionality, configuration options, and algorithms.

Prerequisite/Skill Requirements
Pre-requisites
- Thorough knowledge of Uniformance and PHD

Required Skills and/or Experience
- None

Desirable Skills and/or Experience
- Plant and process knowledge
- Familiarity with Oracle databases
- Knowledge of plant information requirements for Production Management and Operations Management

Course Topics
You will learn....
- About the Production Balance application, including what it does and what it is
- The architecture and algorithms of Production Balance
- How to configure balance group equipment with the correct attributes
- How to determine equipment modes and define instructions for each mode
- How to configure product routings
- How to configure product movement templates
- How to configure tags for measured or calculated inventories
- How to configure automatic processing
- How to make necessary configurations to upgrade a legacy Production Accounting system to Production Balance
- How to use standard reports
- How to use the Production Balance interface and its functions
- How to interpret reconciliation results

Additional Training
To increase your knowledge and skills, there are additional courses available from Automation College.
