

Experion PKS: Fundamentals - Server Differences

Course Overview

Course number: EXP-17-RT

Course length: Up to 40 minutes (Vary by Release Number)

This course provides customers with information about our new product features that are included in Experion® Process Knowledge System (PKS) from one product release to another. This course describes with slides and demos, the differences by product release.

Course Benefits

Provide a conceptual understanding of the new features that are offered from one product release to the next.

Course Delivery Options

- [Recorded Training](#) (RT)
- IMPORTANT – Prior to registration for the e-learning courses (AT, RT, VILT, and VT), you must perform the User Readiness Test. Go to [Asynchronous Training, Recorded Training, Virtual Instructor-Led Training, and Virtual Training Access Requirements](#) to perform this test.

Who Should Take This Course?

Engineers, operators, and maintenance technicians that need to understand the differences between the R500 and R501 product releases.

- Note: Participants must have taken the EXP-02 or EXP-02-AT or EXP-02-VT course at the R500 release to be eligible for the R501 Prerequisite/Skill Requirements

Prerequisite/Skill Requirements

Prerequisite Course(s)

- EXP-02 or EXP-02-AT or EXP-02-VT
