

Experion PKS: Fundamentals - HMIWeb Differences

Course Overview

Course number: EXP-19-RT

Course length: Up to 70 minutes (Vary by Release Number)

This course provides customers with information about our new product features that are included in Experion® Process Knowledge System (PKS) from one product release to another. This course describes with slides and demos, the differences by product release.

Course Benefits

Provide a conceptual understanding of the new features that are offered from one product release to the next.

Course Delivery Options

- [Recorded Training](#) (RT)
- IMPORTANT – Prior to registration for the e-learning courses (AT, RT, VILT, and VT), you must perform the User Readiness Test. Go to [Asynchronous Training](#), [Recorded Training](#), [Virtual Instructor-Led Training](#), and [Virtual Training Access Requirements](#) to perform this test.

Who Should Take This Course?

Engineers, operators, and maintenance technicians that need to understand the differences between the R431 and R501 product releases.

- Note: Participants must have taken the EXP-03 or EXP-03-AT or EXP-03-VT course at the R431 release to be eligible for the R501 Prerequisite/Skill Requirements
- Note: There are no new features from R500 to R501

Prerequisite/ Skill Requirements
