

TPS-0018-RT – TPS: Fundamentals – HPM to EHPM On-Process Migration Implementation

Duration: 80 minutes

By the end of this module, you will:

- Become familiar with the Honeywell Evolution Vision
- Understand the solution towards incremental UCN to EUCN upgrade offered with TPN R686.1 and EPKS R432.1
- Learn the differences among NIM, ENIM and ENB
- Learn the hardware upgrade approach from NIM to ENB
- Understand how to execute on-process HPM to EHPM upgrade on the hybrid UCN with ENB

This training is offered at no cost to Honeywell customers. Access the training at this URL:
