Course Overview

Course number: UOP-0011-LW  
Course length: 2 hours

Merox™ Process - Extraction Web-Based Training & Troubleshooting Workshop*

This course provides the theoretical and practical knowledge needed to efficiently and safely operate a UOP Merox Extraction unit. The course begins with access to a Web-Based Training program, to be completed by the registrant prior to the online workshop. Access to the Expert System is also granted prior to the workshop, so the participant may take advantage of the troubleshooting capabilities. In the workshop participants along with UOP experts will participate in troubleshooting exercises prepared by UOP as well as real-life issues presented by course participants.

Course Benefits

You will acquire the necessary skills and knowledge to:

- Understand UOP Merox Extraction and Sweetening chemistry and process flow
- Develop effective techniques for solving problems
- Identify common impurities and methods for their removal

Course Delivery Options

- In-Center Instructor-Led Training
- On-Site Instructor-Led Training
- Live Webinar (LW)  
  IMPORTANT – Prior to registration for the e-learning courses (LW, RT, VT, and AT), you must perform the User Readiness Test. Go to Virtual Training Access Requirements to perform this test.

Who Should Take This Course?

This course is designed for process engineers and operations personnel who work with the Merox extraction unit, or supervise those who do.

*Attendance is limited to current UOP license holders.

Prerequisite/Skill Requirements

Prerequisite Course (s)

- None

Required Skills and/or Experience

- None

Desirable Skills and/or Experience

- None

Note: This course has a Web-Based Training pre-requisite included that must be completed by the registrant prior to the commencement of the course. Details on how to access and complete the web-based training will be sent to the registrant’s email address a minimum of 30 days prior to the commencement of the course.

Course Topics

You will learn...

- Process flow overview
- Pre-treatment
- Merox treatment
- Post-treatment
- Operation: control and troubleshooting

Additional Training

To increase your knowledge and skills, there are additional courses available from Automation College.
